

Quick Questionnaire – respond by May 10, 2013

Do you have a life jacket or will you rent one from PRO?

If you have one, is it a Type I, III or V (if you do not know describe it.) Only those types are allowed on the river.

Do have extra life jackets that you can share with the group. If so, how many:
(We need 18 good life jackets to show the ranger at the put in. I would like 20 there, in case two are rejected)

Are you planning on renting a dry bag from PRO?

Check the information on the participant list. It must match your ID. If not, the ranger will not let you on the river. Is your personal information correct?

Are you planning to have a car in Flagstaff?

Do you have a national park pass? If so what is the number. If not, do you plan to buy one? (The cost is \$10 for a life time for those 62 or over; \$80 per year if you are not – this is worthwhile if you plan to visit a number of other National Parks within a year). A pass saves \$10 per person up to 4 people.
